

TWE SOLUTIONS

SERVICES BRIEF

TWE ESS PRO

Deploy Palo Alto Networks Essential Security Suite with Confidence

Essential Security Requires Essential Deployment

Deploying a robust security solution like Palo Alto Networks Essential Security Suite (ESS) has never been more critical for businesses facing evolving cyber threats. ESS combines premium network security, advanced endpoint protection, and essential security logging, providing unparalleled visibility and defense against the most sophisticated attacks. With TWE Solutions as your trusted partner, you can ensure ESS is tailored to your organization's unique security and compliance requirements, right from the start.

Deploy with An Industry Leader

Partnering with TWE for ESS deployment means expertise that maximizes the benefits of each ESS component. TWE ensures optimal configuration of Strata Next-Generation Firewalls, including advanced threat prevention, URL filtering, and DNS security, for unmatched network protection. We integrate Cortex XDR, enabling prevention-first endpoint security and rapid threat detection, with scalability for growing environments. And we support secure logging to meet compliance needs and provide actionable insights—all handled with precision by Palo Alto Networks-certified specialists.

The TWE Advantage

With TWE handling ESS deployment, your business gains stronger defenses, better visibility, and streamlined compliance. Proactively address vulnerabilities with Cortex XDR's rapid detection, while Strata firewalls protect critical infrastructure with advanced threat prevention. By centralizing security logging and leveraging automation, TWE helps reduce operational overhead, enabling your team to focus on strategic priorities. The result: an empowered, secure organization that's ready to tackle the complexities of modern IT environments with confidence.

TWE's Comprehensive Deployment Services for Palo Alto Networks Essential Security Suite

Assessment

Evaluate your network needs and business requirements

Firewall Deployment

Expert configuration of Palo Alto Strata firewalls for advanced threat prevention, URL filtering, and DNS security

Endpoint Security with Cortex XDR

Scalable deployment to secure endpoints and detect vulnerabilities rapidly

Security Logging for Compliance

Set up and configure XDR's logging capabilities to meet audit and regulatory requirements

Comprehensive Support

Tailored deployment, post-launch training, and ongoing optimization

Testing and Validation

Conduct rigorous tests to ensure ESS is optimized and functioning as intended

THE MOST COMPLETE ESS DEPLOYMENT & CONFIGURATION FOR BUSINESSES OF ANY SIZE

	TWE Solutions	Typical Competitor
Expert ESS Certifications	Experienced Palo Alto Networks-certified engineers will handle all deployment & configuration	General IT technicians with limited experience with Palo Alto Networks products
End-to-End Expertise	Comprehensive deployment of the ESS suite, including firewalls and Cortex XDR	Focused on one or two products, often lacking cohesive integration
Co-Managed Approach	Collaborative deployment working side-by-side with your IT team	Minimal customer involvement leads to duplicate resources
Deployment Speed	Accelerated, precise implementation timelines that minimize impact to the organization	Varies, often delayed by poorly trained resources
Customization	Tailored to your business and compliance requirements	Generic, one-size-fits-all configurations
Onshore Support	U.S.-based engineering teams in all time zones	Offshore or limited regional availability
Testing & Optimization	Comprehensive testing and validation before handover	Basic or no post-development testing or training

About TWE Solutions

twe-solutions.com

TWE Solutions is the only IT partner that combines a security-first approach with co-managed technology services, seamlessly integrating with your staff to manage infrastructure, firewalls, cloud systems, and endpoints. With highly certified, U.S.-based engineers, TWE brings unmatched expertise to secure your technology and streamline operations, keeping your business efficient, scalable, and compliant.
